

Diverse Commercial and Industry Services

Formation of Industry & Commercial Service Clusters

To provide a wide range of services to an ever-expanding number of tenant enterprises, the STSP Administration recruited Fantasy Travel Service Co., Lee and Li Attorneys at Law, PricewaterhouseCoopers, SinoPac Securities, and Digital United Inc., now located on the second floor of Park17, to provide expert financial, tax management, fund-raising, Internet, stock market, corporate law, consultation, and discount travel services.

To increase industry and commercial service diversity and form related clusters in the Commercial and Industrial Services Center, the STSP Administration recruited King Tachi Co., Mingtai Fire & Marine Insurance Co., AIG General Insurance, Ernst & Young, Lion Travel Agency, and InfoPower, to provide Japanese translation, property insurance, information, educational training, commercial auditing, as well as ticketed-travel and itinerary services.

In the wake of developmental success, demand for equipment by tenant enterprises has greatly increased. In order to provide precision instruments and related services to enterprises, the Administration has recruited Nikon Precision Taiwan, Hitachi High-Technologies Taiwan Corp., Toray International Taipei Inc., and Dainippon Screen Electronics to the Park to ensure quality service, which will, in turn, ensure quality products.

Sales and Public Affairs Forum

The STSP Administration and the Association of Industries in Science Parks co-hosted three sessions of the “2007 STSP Sales and Public Affairs Forum” on May 11, June 28, and August 31, 2007. Over 180 people attended the forums, effectively promoting neighborhood relations, sales information exchange, and the image of STSP.
