

Aiming at the World, The International STSP

STSP Welcomes Friends from All over the World by Demonstrating its Strength

The best time for the STSP to demonstrate its technological strength is when international visitors come. In 2012, the STSP Administration hosted 181 groups, totaling 6,689 people, including dignitaries such as Mr. Akida, Executive Director of the Kitakyushu Foundation for the Advancement of Industry (KFIS), Science and Technology; Mr. Suzuki, Marketing Director of the Japan LSI Cluster; Mr. and Mrs. Mochizuki, the former Vice Minister of Economy, Trade, and Industry; Dr. Michael Zickerick, former Director-general of the German Institute Taipei; Mr. Yang Jianhua, Deputy Director of the Zhongguan Village Technology Area Administration Commission of the Beijing Cross-Strait Private Exchange Promotion Association; Yang Zuang, Dean of the EMBA of Beijing University; Mr. Wu Mengfen, Director-general of the Directorate General of Highways; Advisor to the Kaohsiung City Government, Ms. He Meiyueh; Swiss Congressman, Mr. Sebastian Frehner, and Chairman of Investment Media Co., Ltd., Mr. Hsieh Chinhe, indicating the high degree of recognition of STSP's prowess in technological development.

■ Visit of the KFIS to the STSP (January 17, 2012)

Conference (IASP) was held from June 17 to 20 in Tallinn, Estonia. During the conference, the paper entitled "The Study of the Relationship between Southern Taiwan Science Park and Regional Innovation Network" was presented to share the implementation of the STSP Administration biomedical device program and the facilitation of professional education efforts and research result exchanges as well as the commercialization of research results with the attendees. The STSP representatives also, during the conference, actively visited local medical device makers to exchange and learn in order to lay a more solid foundation for the future development of the biomedical device industry at the STSP.

Investment Recruitment in Japan

To enhance cooperative advantages between Taiwan and Japan, the STSP Administration intends to recruit more Japanese investors to the STSP. During the "2012 Promotion Delegation for Investment and Industrial Cooperation to Japan," organized by the MOEA, the STSP Administration began a series of investment recruitment activities from July 8 to 13 in Japan. Besides general investment recruitment visits, the STSP Administration proactively contacted international manufacturing leaders such as Hitachi, Dai Nippon Printing Co., Ltd., Sumitomo, JX NIKKO METALS, and Nidec Corporation. On July 11 and 12, seminars and consultation meetings on "Investment in Taiwan" were convened in Tokyo and Osaka and filled to capacity. The exceptional investment environment of the STSP impressed the audience and earned much positive feedback.

■ Talks with International Manufacturers at the Dental-Expo in Russia (September 17-20, 2012)

The Visible Strength of the STSP's Medical Device Industry at the Dental-Expo in Russia

During September 17 to 20, the STSP Administration participated in the 32nd Dental-Expo in Moscow, Russia. The high quality products of STSP park enterprises were exhibited in the "Taiwan Excellence Image Hall" to enhance international visibility. At the same time, a matching meeting was convened to showcase the advanced strength of the STSP's medical device tenants.

International Investment

■ STSP Administration Delegation's Visit to THUY AN Company (October 26, 2012)

2012 Asian Science Park Association Annual Conference

The Asian Science Park Association Annual Conference (ASPA) was held in Ho Chi Minh City from October 24 to 27. Led by Deputy Director-general, Mr. Lin Weicheng, the STSP Administration delegation presented a paper entitled "The Next Stage Innovative Strategy for the STSP Biomedical Industrial Cluster" to share with the attendees the overall results of the "Southern Taiwan Biomedical Device Industrial Cluster Development Plan" over the last 3 years and discuss the innovative plans for the next phase. After the presentation, representatives from science parks in Japan and Vietnam contacted the STSP Administration delegation, confirming the strong drive of the increasingly strengthened biomedical industry at the STSP.

Planning for the Future of the Biomedical Device Industry at the STSP

On October 31 at the "Medical Device Innovation Ecosystem Conference," Vice President of the Republic of China, Mr. Wu DenYi, and Minister of the National Science Council, C.Y. Cyrus Chu, President of National Cheng Kung University, Mr. Huang Huihung, and

Academician of the National Science Council, Dr. Michael M.C. Lai were invited to give opening remarks and speeches. Keynote speakers included Dr. Chang Yute, Dr. Su Huijen, Dr. Thomas Fogarty, Dr. Dror Seliktar and Mr. Fred B. Dinger who spoke about the theme "The Indicators for Taiwanese Biomedical Device Industry

■ Opening Remarks Given by Vice President of the R.O.C., Mr. Wu Denyi at the "Medical Device Innovation Ecosystem Conference" (October 31, 2012)

■ Visit to Eka Hospital by the STSP Delegation (November 8, 2012)

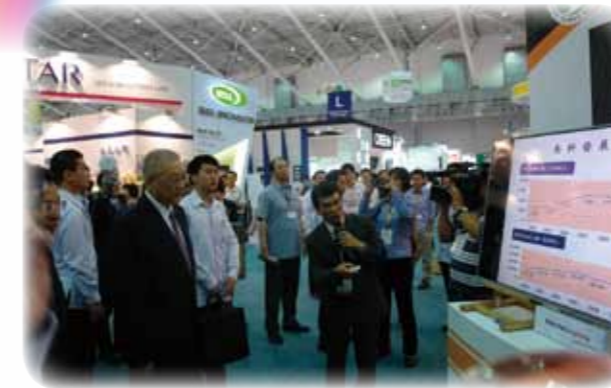

to link to International Standards" with the aim of fully integrating industrial, government, academia, research, and medical resources to promote the R&D efforts of the biomedical industry.

Hand in Hand to Jakarta with the Unlimited Business Potential of the Biomedical Industry

The STSP Administration, on November 8, participated in the "2012 Hospital Expo in Jakarta" to assist STSP park enterprises in accessing the Indonesian market, which has the largest population in the Southeast Asia. During the conference interval, the STSP Administration delegation also visited Jakarta's important medical enterprise, Eka Hospital and other hospital associations. This showed a good understanding of the demands and potential of the medical market in Indonesia. In the future, more comprehensive suggestions and consultations will be provided to its biomedical device manufacturers.

Encouraging the Development of Global Science Parks at the WTA

In order to advance the development experience of international science parks and enhance the visibility of the STSP on the international exchange platform, the STSP Administration participated in the 2012 World Technopolis Association (WTA) Conference in Taejeou, Korea. Experts from Europe and the US were invited to give strategic speeches on "Valorization : Tangible Benefits from Science & Technology Parks." The WTA organizer arranged an exhibition of Korean cultural and scientific development that impressed attendees with its high degree of integration of traditional culture and modern technology.

■ Visit of Vice President of the R.O.C., Mr. Wu Denyi (left front), to the STSP Hall at the International Optoelectronics Exposition (June 19, 2012)

Demonstration of the STSP's Strength at the International Optoelectronics Exposition

The 21st "Taipei International Opto-Electronics Exposition" was held from June 19 to 21 at Nangang Exhibition Hall. After the presentation by the Deputy Director-general, Mr. Lin Yunshou, the Vice President of Wu Denyi of the Republic of China, attendees had a greater understanding of current developments in the optoelectronics and green energy industries at the STSP. The STSP Administration also invited eight park enterprises to participate in the Exposition to showcase the strengths of the STSP to the world.

Bio Strength Visible to the World

"Bio Taiwan 2012 Expo" began on July 26 and lasted until 29 at the Taipei World Center Exhibition Hall. The STSP Administration set up the STSP Hall with exhibitions from eight park enterprises that put all their efforts in the demonstration of their products' strengths. Due to long term capital investment in R&D and outstanding performance, STSP park enterprise "ScinoPharm Taiwan" received the "2012 Golden Award for Outstanding Biotech Enterprise" presented by the Vice President of the R.O.C., Mr. Wu Denyi, as recognition for its outstanding performance.

The STSP's Leading Optoelectronics Cluster in Taiwan

The "2012 Touch Panel and Optical Film Exhibition" was held from August 29 to 31 at Nangang Exhibition Hall in Taipei. The STSP Administration, with the theme "Sunshiny and Glorious STSP," invited

four park enterprises to exhibit in the "STSP Smart Electronics Industry Hall" and demonstrate examples of the best products in the optoelectronics industry, the most comprehensive industrial cluster in the park with the highest amount of Japanese enterprises and arguably the best investment choice at the STSP. Praises and recognition were given by the Vice President of the R.O.C., Mr. Wu Denyi after a presentation on the current state of the STSP by Director-general Chen Chunwei of the STSP Administration who also spoke on the leading role of the STSP in facilitating the rapid development of other industrial clusters.
