## Dental South China International Expo, Promising Opportunities

To assist with the oversea promotion of the STSP medical device enterprises, the STSPB and Metal Industries Research & Development Centre jointly participated in the Dental South China International Expo and helped eight Park dental enterprises to exhibit in Guangzhou between February 27 and March 2. The four-day exhibition successfully attracted the participation of more than 1,000 domestic and international buyers.

## Investment and Talent Recruitment Group in the US

STSPB delegates from April 15 to 24 went to the US for the “2013 Taiwan Investment and Talent Recruitment Group”. In the 2013 Investment and Trading with Taiwan Seminars in both Silicon Valley and Chicago, entitled “Doing Business with Taiwan — Investing and Trading with Taiwan” were organized, and the delegation introduced the excellent environment to attract investment of R&D-oriented companies or companies with advanced technology in the STSP.

## Demonstration of the STSP’s Strength at the International Optoelectronics Exposition

The 2013 “International Optoelectronics Exposition” was convened at the Taipei World Trade Center Nangang Exhibition Hall between June 18 and 20. The STSPB worked together with seven Park enterprises to participate in this Expo. The STSP marketed itself through the STSP Green Energy and Optoelectronics Industry Pavilion. During the opening ceremony, Vice President of the R.O.C., Mr. Wu Denyih, arrived at the Pavilion in person. The former STSPB Deputy Director-general, Mr. Lin Weicheng, presented to his Excellency the current status of the STSP optoelectronics industry as well as the seven participating Park enterprises and their product features.

## Dental Expo in Russia, Demonstrating the Strength of the STSP Medical Device Industry to the World

To assist the medical device makers at the STSP to expand their international channels, between September 16 and 19, the STSPB participated in the Dental Expo in Russia again. This time, the STSPB led seven Park enterprises to participate in the Expo at the Taiwan Pavilion. During the Expo, positive responses in regard to orders, product development, and agencies were received. The participating Park enterprises were satisfied with the effectiveness of the Expo.

## The STSPB's Investment Recruitment in Japan

To demonstrate the strength of the cooperation between Taiwan and Japan, the former Deputy Ministers of the National Science Council, Dr. Sun Henry and Dr. Hocheng Hong led the STSP and CTSP teams to Japan between November 4 and 8. The investment recruitment seminars were held in Tokyo, and visits to well-known enterprises including Japan FUJITSU and Cyber Laser were made. The delegation also visited Kanagawa Science Park and participated in international robot exhibition 2013.
